On p. 83, a supplemental description is to be given as follows.

Additional note:

After the final proofreading, a copy of Ghirshman's "The Island of Kharg" (Tehran, 1960) came to hand by courtesy of Dr. Warwick Ball, to whom I express my best thanks. According to the description by Ghirshman, the above-mentioned orientation of the Kharg church (see p. 79), which followed the incorrect indication presented by Whitehouse *et al.*, has proved to be upside-down.
